

STAY **HEALTHY** FOR SANTA

Bacteria and viruses can live up to eight hours in clothing.

Santa's beard, hair, and Santa suit can all harbor virus and other organisms.

MASK

HAND SANITIZER

'SANTA' SEAT COVER

Take precaution before taking your kids to see Santa. If masks and 'Santa' seat covers risk ruining the holiday spirit, please at least try hand sanitizer and / or throat antiseptic.

Good little boys and girls will not visit Santa while they are sick. Parents, please do not take your kids to see Santa if your children are ill. They could spread illness to other kids via Santa's lap. It would be awful for kids to open their stockings Christmas morning to discover Swine Flu beside a piece of coal.
